

COURSE	RECOGNITION	DATE	LOCATION
<p>IEMA Leading with Environmental Sustainability</p> <p>From leaders in organisations, senior executives, board members and investors, this course encourages all to formulate a strategic understanding of the risks and opportunities presented by a changing environment on their ability to do business.</p>	 (Certificate issued by IEMA)	Provided in-house upon request	
<p>IEMA Managing with Environmental Sustainability (2 days)</p> <p>This course is for anyone working in a managerial role, regardless of sector, role or previous experience of environmental issues. It aims to provide you with a strategic and operational overview of environmental sustainability as it affects your specific industry and work area. This course covers understanding strategic opportunities and constraints that environmental sustainability presents to organisations, benefits of resource efficiency, impact of environmental sustainability across the value chain and organisational approaches to environmental management. It is also intended to give you an understanding of the role of environmental sustainability and sustainable development are playing in helping organisations to grow their business in both national and international work environments.</p>	 (Certificate issued by IEMA)	25 – 26 Feb 2 – 3 Jun 18 – 19 Aug 27 – 28 Oct	Kuala Lumpur Penang Kuala Lumpur Penang
<p>IEMA Making The Transition to ISO 14001:2015 (2 days)</p> <p>This course is designed to provide you with an understanding of the revised standard, enabling you to evaluate and implement changes with the aim of improving your organisation's EMS and environmental performance. You will also benefit from being issued with a "gap analysis" tool to assist in the planning management and transition to 14001:2015.</p>	 (Certificate issued by IEMA)	20 – 21 Jan 17 – 18 Mar 26 – 27 May 29 – 30 Sep 8 – 9 Dec	Kuala Lumpur Penang Kuala Lumpur Penang Kuala Lumpur
<p>GRI G4 Certified Training (Sustainability Reporting) (3 days)</p> <p>This course organised by National Centre for Sustainability Reporting (NCSR) in collaboration with SHEMSI will introduce you the elements of a sustainability report using the GRI's five step process: "prepare, connect, define, monitor and report" and prepare you to coordinate the sustainability reporting process. The GRI Certified Training program empowers participants to begin or improve their sustainability reporting using the world's leading sustainability reporting framework.</p>	  (Certificate issued by NCSR and GRI)	14 – 16 Apr 4 – 6 Aug 17 – 19 Nov	Kuala Lumpur

<p>IOSH Managing Safely (4 days)</p> <p>This course is for managers and supervisors of any sector and any organisation. It brings managers up to speed on the practical actions needed to handle health and safety in their workplace. It will give the knowledge and tools to tackle health and safety issues you are responsible for. Importantly – it brings home why health and safety is such an essential part of their job.</p>	 (Certificate issued by IOSH)	2 – 5 Mar 11 -14 May 24 – 27 Aug 30 Nov – 3 Dec	Kuala Lumpur Penang Kuala Lumpur Penang
<p>IEMA Carbon (GHG) Accounting and Managing (2 days)</p> <p>This course aims at professionals responsible for measuring, reporting and managing carbon dioxide and other greenhouse gas (GHG) emissions for their organisation. This course will provide you the latest information regarding GHG emissions accounting and management and focuses on areas such as: background to climate change, developing a carbon accounting system, managing GHG emissions and options for reducing GHG emissions. You will also be equipped to communicate effectively the imperative of reducing the GHG emissions with colleagues.</p>	 (Certificate issued by Conestoga-Rovers & Associates, UK)	1 – 2 Apr 28 – 29 Jul 6 – 7 Oct	Kuala Lumpur

The Institute of Environmental Management and Assessment (IEMA) is the professional home of over 15,000 environment and sustainability professionals from around the globe. It is a not-for-profit membership organisation established to promote best practice standards in environmental management, auditing and assessment.

Institution of Occupational Safety and Health UK (IOSH) is the only Chartered body for health and safety professionals in the world. As the largest health and safety membership organisation in the world, IOSH has more than 44,000 individual members in over 100 countries.

SHEMSI

Our trainers are expert members of the ISO Technical Committees' Working Groups on the revision of ISO 14001 and development of ISO 45001 as well as other ISO standards such as ISO/TR 14069:2013 (Quantification and reporting of greenhouse gas emissions for organisations – Guidance for the application of ISO 14064-1) and the upcoming ISO 37101 (Sustainable Development in Communities).

Please take note that besides the courses listed in this schedule SHEMSI provides other sustainability related courses including on environmental and safety and health, such as Environmental Aspect/Impact and Safety and Health Hazard and Risk Identification, EMS/OHSMS Implementation, Internal EMS/OHS auditing etc. SHEMSI also provides customised in-house training to suit clients' needs. Further information on our capabilities may be found on our website [here](#).

Should you have any questions regarding our training courses, do drop us a line or give us a call at mail@shemsi.com or 03-51917858.
