

***All our courses are conducted in Kuala Lumpur unless specified.**

COURSE	RECOGNITION	PRICE / PAX (not including 6% GST)	DATE
<p>IEMA Making the Transition to ISO 14001:2015 (2 days)</p> <p>This course is designed to provide you with an understanding of the revised standard, enabling you to evaluate and implement changes with the aim of improving your organisation's EMS and environmental performance. You will also benefit from being issued with a "gap analysis" tool to assist in the planning management and transition to 14001:2015.</p>	 (Certificate issued by IEMA)	<p>RM 2000</p>	<p>7 – 8 March 11 – 12 July 10 – 11 October</p>
<p>IEMA Auditing to ISO 14001:2015 (1 day)</p> <p>This course is ideal for experienced environmental management systems (EMS) auditors, including internal and external auditors, giving them the ability to undertake effective EMS audits to ISO 14001:2015. This course will provide them with the knowledge needed to help their organisations achieve the benefits of the transition to the revised standard, help to improve their organisation's EMS and deliver enhanced environmental sustainability performance.</p>	 (Certificate issued by IEMA)	<p>RM 1000</p>	<p>9 March 13 July 12 October</p>
<p>IOSH Working Safely (2 days)</p> <p>This course is ideal for introducing workers to why health and safety is important. Working safely shows how everyone can make a difference to their own wellbeing and that of others through everyday behaviours. This course gives them the knowledge and tools to tackle the health and safety issues they're responsible for. Importantly, it brings home just why health and safety is such an essential part of their job.</p>	 (Certificate issued by IOSH)	<p>RM 2000</p>	<p>11 – 12 April 12 – 13 September</p>
<p>IOSH Managing Safely (3 days)</p> <p>This course is for managers and supervisors of any sector and any organisation. It brings managers up to speed on the practical actions needed to handle health and safety in their workplace. It will give the knowledge and tools to tackle health and safety issues they are responsible for. Importantly – it brings home why health and safety is such an essential part of their job.</p>	 (Certificate issued by IOSH)	<p>RM 3000</p>	<p>16 – 18 May 5 – 7 September</p>

<p>GRI Standards Certified Training (Sustainability Reporting) (3 days)</p> <p>This course organised by National Centre for Sustainability Reporting (NCSR) in collaboration with SHEMSI will introduce you the elements of a sustainability report using the GRI's five step process: "prepare, connect, define, monitor and report" and prepare you to coordinate the sustainability reporting process. The GRI Standards Certified Training program empowers participants to begin or improve their sustainability reporting using the world's leading sustainability reporting framework; the GRI Standards.</p> <p><i>*Those thinking of attending the course should note that a number of stock exchanges in ASEAN are in the process of either reviewing or changing their reporting requirements to include some form of sustainability reporting. Bursa Malaysia has recently launched its Sustainability Framework, Sustainability Reporting Guide and Toolkits, to encourage public listed companies to take on the sustainability path. Attendance at this course may assist participants to better understand the requirements and its implementation.*</i></p>	  <p>(Certificate issued by NCSR and GRI)</p>	<p>RM 3500</p>	<p>28 – 30 March</p> <p>22 – 24 May</p> <p>8 – 10 August</p> <p>14 – 16 November</p>

MATERIALITY : We are currently in the midst of developing a course on ‘Materiality’ where we will cover the materiality concept, including how material sustainability matters of an organization can be identified. We will be offering the course in the public domain within the second half of this year. Stay with us and we'll keep you updated on our future courses!

The Institute of Environmental Management and Assessment (IEMA) is the professional home of over 15,000 environment and sustainability professionals from around the globe. It is a not-for-profit membership organisation established to promote best practice standards in environmental management, auditing and assessment.

(SHEMSI is an IEMA Registered Training Centre)

Institution of Occupational Safety and Health UK (IOSH) is the only Chartered body for health and safety professionals in the world. As the largest health and safety membership organisation in the world, IOSH has more than 44,000 individual members in over 100 countries.

(SHEMSI is an IOSH Approved Training Provider)

SHEMSI

Our trainers are expert members of the ISO Technical Committees' Working Groups on the revision of ISO 14001, development of ISO 45001 and the revision of ISO 19011 as well as other ISO standards such as ISO/TR 14069:2013 (Quantification and reporting of greenhouse gas emissions for organisations - Guidance for the application of ISO 14064-1) and ISO 37101 (Sustainable Development in Communities).

Please take note that besides the courses listed in this schedule SHEMSI provides other sustainability related courses including on environmental and safety and health, such as Environmental Aspect/Impact and Safety and Health Hazard and Risk Identification, EMS/OHSMS Implementation, Internal EMS/OHS Auditing etc. SHEMSI also provides customised in-house training to suit clients' needs.

For those considering upgrading their current management system(s) to meet requirements of the recently revised standards ISO 14001:2015, 9001:2015 and soon to be published ISO 45001 (OHSAS 18001), and are unsure of where to start it may be helpful to carry out a gap analysis. The gap analysis will help in identifying additional resources (time, people, cost) needed for upgrading purposes and ensure efficient use of existing resources. Should you require assistance to carry out this gap analysis or provide training and consultation to upgrade your management system(s) please do not hesitate to contact us and we will be pleased to provide you with a quote.
